

# Welcome to CMM Quest v1.3!

## CMM-Quest v1.3

The software tool to rate and analyze  
your software development processes  
compliant to CMMI-DEV v1.3

Capability Maturity Model® Integration

### **The Vision:**

Quality of software development processes may be measured, improved and consequently managed!

### **The Mission statement:**

"If you don't know, where you are, even the best compass won't help you."  
Think of possible changes only after performing an assessment!

### **The Mission:**

CMM Quest v1.3 ist the tool to understand and to put into practice the essential contents of CMMI-DEV v1.3 and it helps to identify and eliminate the barriers on your way to success.
